Valutazioni Scuola Secondaria

REPORT di sintesi FINALE

Monitoraggio degli esiti formativi al I quadrimestre
(disciplinari e comportamentali)
Anno Scolastico 2025-26

Per verificare l'efficacia degli interventi formativi della progettazione e sollecitare processi auto valutativi, nell'ambito dell'incarico di funzione strumentale al Piano dell'offerta formativa, relativamente all'area della valutazione degli esiti formativi della scuola Secondaria, è stata condotta un'indagine per la rilevazione degli esiti di apprendimento attraverso:

- la rilevazione della situazione iniziale degli alunni
- la rilevazione dei risultati conseguiti dagli allievi nel primo e nel secondo quadrimestre, sia nelle varie discipline che nel comportamento

Sono state calcolate le percentuali e le variazioni percentuali relativamente ai livelli di partenza e ai risultati del primo e del secondo quadrimestre, con lo scopo di:

1. confrontare i dati relativi alla valutazione iniziale e del I quadrimestre degli alunni della scuola Secondaria
2. Individuare i punti di forza e di debolezza; sollecitare la riflessione; cercare soluzioni

Prove comuni

La valutazione diagnostica iniziale è stata effettuata tramite la somministrazione di prove comuni di ingresso, Intermedie e finali, mirate e funzionali, per discipline. I docenti hanno quindi concordato, all'inizio di anno scolastico, ed esplicitato in forma scritta, attraverso griglie di misurazione predisposte per i diversi tipi di verifiche e per le singole discipline, criteri di valutazione delle prove scritte sulla base di descrittori condivisi.

Il monitoraggio ha evidenziato i seguenti risultati rappresentati con grafici riepilogativi relativi alle singole discipline secondo i criteri di rilevamento in orizzontale, verticale e globale della scuola Secondaria.

Dei **170** alunni iscritti, gli alunni monitorati sono stati **163** così distribuiti

n.4 classi prime	n.61 alunni	n.58 alunni valutati
n.2 classi seconde	n.42 alunni	n.41 alunni valutati
n.3 classi terze	n.67 alunni	n.64 alunni valutati

Esiti II Quadrimestre

Durante il primo quadrimestre si è proceduto ad una valutazione in itinere a verifica dell'efficacia dell'azione didattica con momenti valutativi di osservazione, feedback continuo sui percorsi formativi, prove periodiche di verifica intermedie. Essa ha consentito ai docenti di rilevare informazioni analitiche e continue nel corso del processo di insegnamento/apprendimento per poterlo controllare e, se necessario, modificare e predisporre interventi di recupero e di rinforzo oppure attività di potenziamento in base alle reali esigenze degli alunni. La valutazione in itinere è stata per gli allievi un momento di presa di coscienza dei propri apprendimenti e uno stimolo a sviluppare la volontà al recupero/consolidamento/potenziamento delle proprie capacità. Alla fine del primo quadrimestre si è proceduto ad una valutazione sommativa dei risultati raggiunti che è stata effettuata con lo scopo di verificare il livello di apprendimento conseguito e ha consentito un giudizio sulle conoscenze e abilità acquisite dallo studente in sede di scrutinio quadrimestrale.

Gli alunni monitorati e scrutinati sono stati **170** così distribuiti:

n.4 classi prime	n.61 alunni
n.2 classi seconde	n.42 alunni
n.3 classi terze	n.67 alunni
