

MINISTERO DELL'ISTRUZIONE
XI ISTITUTO COMPRENSIVO "GRAVITELLI"
- Scuola ad Indirizzo Musicale -

ESITI SECONDO QUADRIMESTRE

Anno Scolastico 2020/2021

L'analisi delle prove comuni somministrate per classi parallele, offre diversi importanti spunti di riflessione sull'efficacia delle attività didattiche nelle differenti discipline in oggetto e sulla valutazione degli apprendimenti. L'analisi dei dati ottenuti può infatti permettere di agire e modificare con relativa efficacia dell'azione educativa consentendo allo stesso tempo una visione d'insieme dell'andamento didattico delle classi nei diversi plessi dell'Istituto Comprensivo. Sempre nell'ottica del miglioramento degli interventi didattici risulta utile e da incentivare il continuo confronto *verticale* tra i diversi ordini di scuola su strategie e modalità operative per le differenti discipline. In particolare l'analisi critica delle prove finali offre spunti di riflessione per fare il punto della situazione globale sugli apprendimenti dei ragazzi, ponendo le basi per il lavoro collegiale e individuale dei docenti per il prossimo anno scolastico.

Dopo aver raccolto, organizzato, esaminato, comparato, aggregato in vari modi i dati relativi alla valutazione quadrimestrale degli alunni nell'anno scolastico 2020/21, si sono elaborati gli esiti del monitoraggio degli apprendimenti in modo che nel Collegio dei Docenti si possa poi procedere alla formulazione di ipotesi di interpretazione degli stessi.

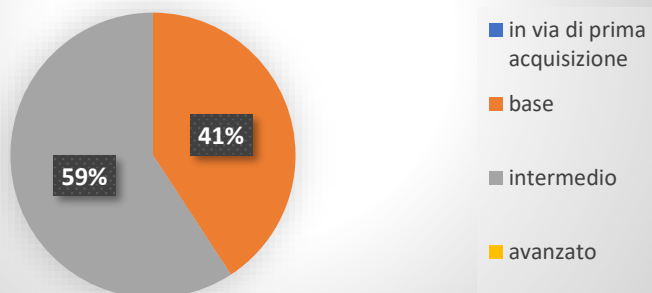

Le discipline oggetto del monitoraggio sono italiano, matematica e inglese. Il confronto diretto e l'andamento nel tempo delle valutazioni del periodo intermedio e finale è visibile dagli istogrammi comparati che raccolgono nello stesso grafico gli esiti relativi al primo e al secondo quadrimestre.
